GreenerAge
CLIMATE-CHANGE AND ENVIRONMENTAL
LITERACY FOR URBAN CITIZENS 55+

Our planet needs our action!

Without action on climate change, in the next decades we will face a potential 5°C temperature increase and experience thousands of premature deaths due to air pollution and heatwaves.

This is why we are excited to officially launch our newest project:

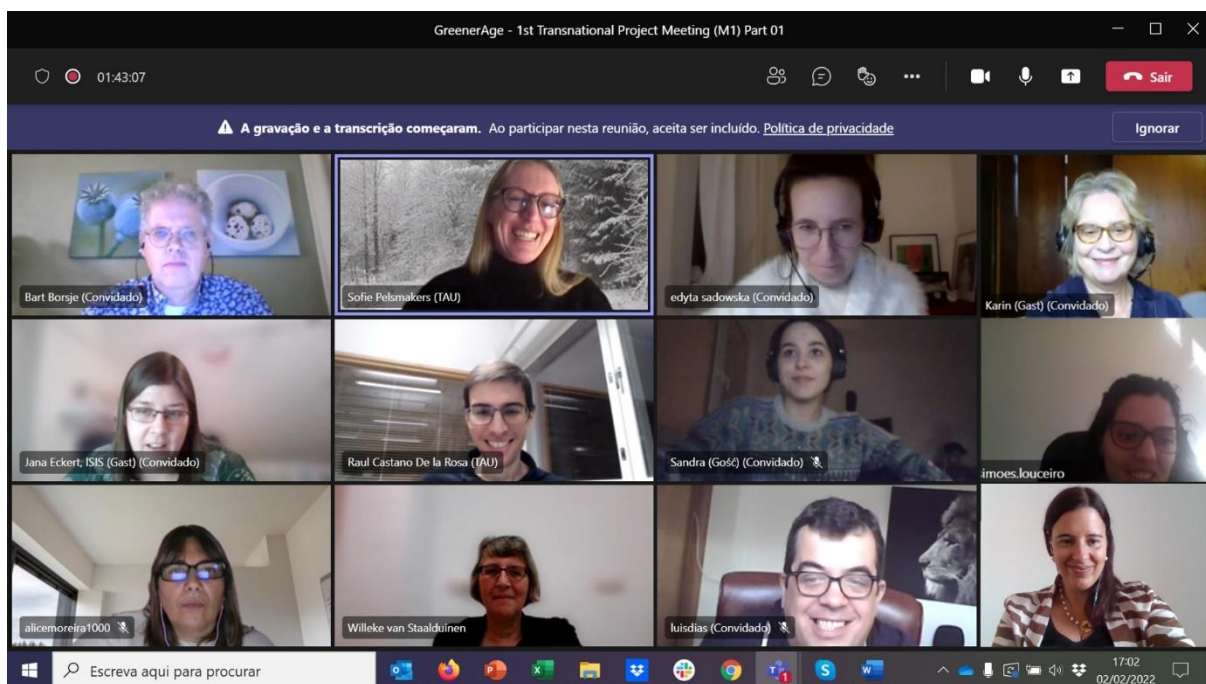

GreenerAge | Climate-change and environmental literacy for urban citizens 55+

In GreenerAge, we want to support you to **GO GREEN!**

In the next 2 years, you will find a **LEARNING PLATFORM** to improve your green literacy and digital skills, with several **TOOLS**, a **COMPENDIUM** and a **TRAINER MANUAL**.

We will tell you soon when our website is on.

Our consortium joins Finland, Portugal, Germany, The Netherlands and Poland in a creative and engaged team!
